

Surely We Can Do More: A Powerful Call to Address the Climate Crisis

In his groundbreaking book, Surely We Can Do More, renowned climate scientist Kevin Anderson presents a compelling and urgent call to action. Anderson argues that the climate crisis is the defining issue of our time and that we must take bold and decisive action to avert its worst effects.

Anderson begins by laying out the scientific evidence for the climate crisis. He shows that the Earth's climate is changing at an unprecedented rate, and that human activities are the primary cause. He also warns that the consequences of climate change are already being felt around the world, in the form of extreme weather events, rising sea levels, and changing plant and animal life.

Anderson then turns his attention to the political and economic barriers to climate action. He argues that the fossil fuel industry has a vested interest

in maintaining the status quo, and that it has spent billions of dollars to sow doubt about the science of climate change and to block policies that would reduce carbon emissions.

Despite these challenges, Anderson believes that we can still avoid the worst effects of climate change. He outlines a number of practical solutions, including:

- Investing in renewable energy sources
- Improving energy efficiency
- Reducing our reliance on fossil fuels
- Protecting forests and other natural carbon sinks

Anderson also argues that we need to change our thinking about climate change. He says that we need to move beyond the idea that climate change is a distant threat and start to see it as an immediate crisis that requires urgent action.

Surely We Can Do More is a powerful and inspiring call to action. It is a must-read for anyone who is concerned about the climate crisis and wants to learn more about what can be done to address it.

Praise for *Surely We Can Do More*

"*Surely We Can Do More* is a must-read for anyone who cares about the future of our planet. Kevin Anderson provides a clear and concise overview of the climate crisis, and he lays out a number of practical solutions that we can implement to avoid its worst effects." - Bill McKibben, author of *The End of Nature*

"Surely We Can Do More is a powerful and urgent call to action. Kevin Anderson shows that the climate crisis is not a distant threat, but an immediate crisis that requires our immediate attention." - Naomi Klein, author of *This Changes Everything*

"Surely We Can Do More is a must-read for anyone who wants to understand the climate crisis and what we can do to address it. Kevin Anderson provides a clear and compelling case for why we need to act now." - James Hansen, former director of NASA's Goddard Institute for Space Studies

About the Author

Kevin Anderson is a professor of energy and climate change at the University of Manchester. He is a leading expert on the climate crisis and has published extensively on the topic. Anderson is a frequent speaker at conferences and events around the world, and he has advised governments and businesses on climate change policy.
